SUPERClean VEHICLE

SuperClean Vehicle cleaner is a slightly alkaline, extremely effective foam cleaner for optimum cleaning of your lacquered vehicles. SuperClean Vehicle cleaner penetrates deep into (heavy) pollution and cleans trucks, cars, boats, heavy equipment and other vehicles. Its super formulation works fast at low concentrations*.

BENEFITS:

- Excellent surface adhesion ensures powerful cleaning
- Specially developed for the effective cleaning of transport equipment
- Right after applying, SuperClean Vehicle cleaner can be removed and will leave a smear & streak free finish

HOW TO USE:

- Remove coarse dirt
- Rinse shortly after with water (always rinse aluminum objects!)
- Dosage 1 - 3% (In case of strong pollution use a higher concentration)
- Use a foam lance or similar device to apply
- Soaking time 3 - 10 minutes (in case of strong pollution use a longer soaking time)
- Never allow to dry out!
- After application it might be required to brush with a soft vehicle paint friendly brush
- Rinse down with water (increased pressure)

DOSAGE:

1- 3%

CONTACT TIME:

3 to 10 minutes

NEVER LET IT DRY

STORAGE:

Cool, dry

PACK SIZE (KG):

22|230|1000

*SuperClean Vehicle cleaner does not deteriorate the common materials of vehicles or other lacquered products. Less to not suitable for some types of aluminium and chromium. This can be tested by applying the SuperClean Vehicle cleaner on a small surface with a short contact time.
