BIOClean BASE

22 KG

BIOClean BASE, an extremely powerful, alkaline soaking agent with a superior adhesion that allows it to penetrate deeply into the contaminated area.

BENEFITS:

- Extremely long adhesion for effective cleaning
- Powerful at low concentration: from 1% there will be a very homogeneous and stable foam
- Saves water, labour and product

HOW TO USE:

- Remove coarse dirt and loose material
- Dosage 1 - 2%. Depending on the nature of the contamination
- Can be used without dilution and in the right dosage
- Apply with a professional foam system
- Soaking time 30 – 60 minutes, never let dry
- Use a high pressure cleaner with water to hose down the BIOClean BASE

DOSAGE:

1- 2%

CONTACT TIME:

3 to 10 minutes

NEVER LET IT DRY

STORAGE:

Cool, dry

PACK SIZE (KG):

22|220|1000

HAZARD STATEMENT

May be corrosive to metals. Causes severe skin burns and eye damage. May cause damage to organs through prolonged or repeated exposure.

PRECAUTIONARY STATEMENT

Keep only in original packaging. Do not breathe mist or vapour. Wash thoroughly after handling. Wear protective gloves, protective clothing, eye protection and face protection. Absorb spillage to prevent material-damage. IF SWALLOWED: Rinse mouth. Do NOT induce vomiting. IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water. Wash contaminated clothing before reuse. IF INHALED: remove person to fresh air and keep comfortable for breathing. Immediately call a POISON CENTER or doctor. Specific treatment (see information on this label). IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Store locked up. Store in a corrosion resistant container with a resistant inner liner. Dispose of container in accordance with local, regional, national and international regulations.

Please contact your supplier if a Safety Data Sheet (SDS) is required.
